Exp. 7 Uploading Sequence Diagram in Azure DevOps Wiki

DEFINITION:

A **Sequence Diagram** is a UML diagram that represents the interaction between objects in a system in a time sequence. It shows how messages are passed from one object to another.

PURPOSE:

• To represent interaction between system components

• To show the sequence of messages

• To model dynamic behavior of a system

BASIC COMPONENTS (Notations):

1. Actor / Object

• Represents a user or system component

• Drawn as a **rectangle with name**

Example: User, System

2. Lifeline

• Represents the existence of an object over time

• Drawn as a **vertical dashed line**

3. Activation Bar

• Represents the time an object is active

• Drawn as a **thin rectangle on lifeline**

4. Message

• Represents communication between objects

• Drawn as **horizontal arrows**

Example: login(), validate()

5. Return Message

• Represents response from receiver

• Drawn as a **dashed arrow**

6. Self Message

• Object sending message to itself

• Drawn as a **loop arrow**

7. Destroy / End

• Represents end of object

• Shown with an **'X' mark**

HOW TO UPLOAD SEQUENCE DIAGRAM

AIM:

To upload a Sequence Diagram in the Wiki using Azure DevOps.

TOOLS REQUIRED:

• Azure DevOps

• Web browser

• Sequence Diagram image (PNG/JPG)

PROCEDURE:

Step 1: Open Azure DevOps

• Go to Azure DevOps

• Sign in with your Microsoft account

Step 2: Select Project

• Choose your existing project from the dashboard

Step 3: Navigate to Wiki

• Click on **Wiki** from the left menu

• If Wiki is not created:

o Click **Create Wiki**

o Select **Project Wiki**

Step 4: Create New Page

• Click on **New Page**

• Enter **Sequence Diagram**

Step 5: Upload Diagram

• Click on **Insert Image (image icon)**

• Choose **Upload from Computer**

• Select the **Sequence Diagram file**

• Click **Upload**

Step 6: Save the Page

• Click **Save**

Step 7: Verify Upload

• Ensure the Sequence Diagram is displayed correctly

RESULT:

Thus, the Sequence Diagram was successfully uploaded to the Wiki using Azure DevOps.
