Exp. 3 Uploading Use Case Diagram in Azure DevOps Wiki

DEFINITION:

A **Use Case Diagram** is a type of UML (Unified Modeling Language) diagram that represents the interaction between users (actors) and a system. It shows what the system does from the user's perspective.

PURPOSE:

- To capture functional requirements
- To show system-user interaction
- To provide a high-level view of the system

BASIC COMPONENTS (Notations):

1. Actor

- Represents a user or external system
- Drawn as a **stick figure**

Example: User, Admin

2. Use Case

- Represents a function or action performed by the system
- Drawn as an **oval shape**

Example: Login, Register, View Results

3. System Boundary

- Defines the scope of the system
- Drawn as a **rectangle box**

Contains all use cases

4. Association

- Shows interaction between actor and use case
- Represented by a **straight line**

5. Include Relationship (<<include>>)

- One use case includes another
- Shown using **dashed arrow with <<include>>**

Used for common functionality

6. Extend Relationship (<<extend>>)

- Optional behavior extending a use case
- Shown using **dashed arrow with <<extend>>**

7. Generalization

- Represents inheritance between actors or use cases
- Shown using **arrow with hollow triangle**

HOW TO UPLOAD USECASE DIAGRAM

AIM:

To upload a Use Case Diagram in Wiki using Azure DevOps.

TOOLS REQUIRED:

- Azure DevOps
- Web browser
- Use Case Diagram image (PNG/JPG)

PROCEDURE:

Step 1: Open Azure DevOps

- Go to Azure DevOps
- Sign in with your Microsoft account

Step 2: Select Project

- Choose your existing project from the dashboard

Step 3: Navigate to Wiki

- Click on **Wiki** from the left menu

- If Wiki is not created:
    - Click **Create Wiki**
    - Select **Project Wiki**

Step 4: Create New Page

- Click on **New Page**
- Enter Use Case Diagram

Step 5: Upload Diagrams

- Click on **Insert Image** (image icon)
- Choose **Upload from Computer**
- Choose Use Case Diagram file
- Click **Upload**

Step 7: Save the Page

- Click **Save**

Step 8: Verify Upload

- Ensure the Use Case Diagram is displayed correctly

RESULT:

Thus, the Use Case Diagram was successfully uploaded to the Wiki using Azure DevOps.
